Web: www.eaglepoint.ca Email: info@eaglepoint.ca

Marina Hours (May through September, 2024)

Monday to Friday: 9 am to 6 pm

Saturday: 10 am to 5 pm **Sunday and Holidays:** Closed

After Hours or Emergency: Call Wade or Lolita:

Home: 306-425-3285 or Cell: 306-425-9487/9808

Moorage: We can accommodate boats of all sizes including pontoon boats - costs are based on length. Seasonal and monthly customers receive a berth, one parking pass, and unlimited ramping. Payment, in full, is due upon arrival and one vehicle parking pass will be issued at that time. Additional parking passes are available to purchase for multiple vehicles and guests.

Dock System: Floating docks and buoys are utilized in our marina. We ask that there be no alterations, adjustments or extras added to the docks or slips without consulting us first.

Service/Fueling Dock: The service dock is a 48' cedar covered aluminum system in front of the Fuel Shed and Fuel Tank. **The service dock is only to be used if you are in attendance.** For your convenience, there is a load/unload dock slip nearby for short-term use.

Delivery Service: Services are available for Shopping Pick Up and Delivery. Order and pay for your groceries, prescriptions, or hardware in La Ronge or Air Ronge and we will pick up and deliver to the dock for you at an arranged time. Mail can also be picked up and delivered but the key to your PO Box will need to be dropped off at the Marina Office. Price for this service depends on the service required.

Fuels, Oils & Propane: Note that we sell **Premium Gasoline Only.** Fueling is a self-service system requiring customers to establish an account with a credit card on file. PIN numbers will be issued and customers pumping their own fuel receive a discount. If you are interested in self-fueling privileges, please see the office. Meter reads are made every two weeks from May-Sept. and monthly during the rest of the year. We have a fuel hose reel and request that customers please rewind the hose after every use to help keep the dock safe and tidy. For customers without an account number, an attendant will operate the fuel system... *please visit Marina Office for assistance.*

Our propane filling station is capable of filling any size of cylinder from 5-100 lb. (20 lb. minimum fill charge). An attendant will advise you if your tank needs to be recertified. Empty tanks can be dropped off at the propane station and once filled will be placed beside the fuel shed at the dock.

For oils, additives and miscellaneous lubricants, we stock a complete line of Mercury products.

Business Centre: We are still pleased to offer you any kind of business service you may require but due to a lack of space, a private office is no longer available. Please see marina staff for assistance.

Lake Service: If you find yourself broken down, stranded or in need of help we are here! We always have service boats at the ready and our Deck Boat is also available with a deck measuring 14'x30'. We offer any kind of expediting services that you may require which may be as simple as transporting guests and gear to your cabin or transporting a load of material for those summer projects. We can also arrange scenic lake tours. Please see rate sheet for pricing.

Parking: Only DAYTIME parking is allowed at the marina (8 am - dusk). All other parking is in designated areas. If you require a lift to or from there or valet parking, we will do everything possible to accommodate you. Extra parking passes are for sale for use when you have guests or family. You must display this pass on your dash or hanging from your mirror. Vehicles with no pass showing or vehicles that are left overnight at the marina will be towed. **The clubhouse parking lot is not for marina use - this parking lot is for clubhouse patrons only.**

Insurance: Please confirm that your equipment is insured. We carry liability insurance and insurance for units that are being worked on in the shop only. Storing or mooring your equipment on our property does not mean we are insuring it. Please note that if you are leaving your boat on dock, you should also have an automatic bilge pump.

Security: We do our best to make sure your possessions are protected. Every morning the docks are walked and visually inspected. If any irregularities are noted with your equipment, you will be notified. The yard is well lit and there is also an onsite security camera system for additional protection... so Smile!!

No Wake Zone: When entering and leaving the marina area, please respect this zone, as it saves everyone's equipment. **No wake means you should be completely off plane and travelling at less than 5 miles/hour, with no white water behind you when passing the marker buoy.**

Garbage Removal: This is a service we provide to our dock space customers for household bagged garbage only. The La Ronge and area landfill is now a controlled site and **ALL GARBAGE NEEDS TO BE BAGGED.** If you do have larger items, there will be a nominal fee to cover our labour, fuel, equipment, transfer time to the landfill, plus landfill charges.

Pets: Pets should be leashed at all times. If your pet needs to do their "business" before hopping in the boat or getting ready for the road **you must pick it up.** For your convenience, a "doggy bag" station has been set up at the end of the fence line. The grassy area by the playground is for everyone to enjoy and **there are absolutely no pets allowed in this area.**

Beach/Playground/Picnic Area: This area is for the enjoyment of everyone so please keep it tidy and dispose of trash in the provided bins. **Please note:** the playground area is unsupervised.

Storage: We offer indoor (non-heated) and outdoor seasonal and yearly storage for your equipment. **Shrink wrapping** boats is also now available. Please see rate sheet for details or consult with Wade about options. Rates are based on the space your equipment takes up, i.e., a boat & trailer would be measured from trailer tongue to propeller end.

Mechanical Service: We employ two qualified technicians who will fix or service anything from chainsaws to boats. Our shop rate is \$130/hour with a minimum half hour charge. Our technicians are certified and have up-to-date training with Mercury, Husqvarna and Stihl. Our shop has the tools required to work on both old and new equipment.

VHF Communications: During our marina hours, we monitor VHF channel 16 USA (not INT) and our handle is "Eagle Point Base". Our telephone number is **306-425-2273** Ext 221 at the Marina.

Marina Store: We carry a full range of boat and water-fun accessories, parts and batteries at competitive rates. If we don't have it, just ask and we can order it. A small line of toiletry items, clothing, fishing tackle, and ice are also available. *Make sure you get a copy of our marine accessory catalogue!*

Charge Accounts: For those of you who have a charge account with us; please note that terms are 30 days. Interest will be charged on overdue accounts and files going over 60 days will be sent to a collection agency. You will receive a statement every month which will include all applicable invoices. If you have any questions, please let us know as soon as possible. If you require a charge account, please see Wade or Lolita. Charge accounts can be cleared by cheque, debit card, e-transfer or cash (no credit cards). If you would like to use your credit card at time of purchase, we do accept Visa or Mastercard.

If you bank with Conexus in La Ronge or any of their affiliated branches, you can pay us through your on-line banking! If you don't know your account number with us, please call! If you do not bank with Conexus you can still pay on line at www.telpay.ca/webpay. E-transfers can be sent to accounting@eaglepoint.ca.

Winter Service: We offer much the same services in the winter although more limited and a little more relaxed!!

Dealership: We are authorized dealers for **Princecraft** Boats, **Mercury** Motors, **Husqvarna** Power Products, **Klim** outdoor gear, **Stihl** Power Products, the **Trailtech** line of multi-use rugged trailers, and **Kingfisher** heavy duty aluminum boats including hard-tops, soft-tops, jet boats and the rugged 1825 Warrior designed and built specifically for the northern market. **Fire Suppression Equipment (Pumps, sprinklers, hoses & fittings)** is also available.

Come in and see us in the marina showroom and check out our latest gadgets and marine accessories, all at competitive prices. Of course we service what we sell - **Eagle Point - Where the Service Lasts Long After the Sale is Made!**

**We truly appreciate your business!
Have a fun and safe summer!**
